SYBILLE AMBER

has successfully completed the online, non-credit Specialization

Songwriting: Writing, Arranging, and Producing Music

This specialization will provide aspiring and established songwriters with the strategies and practices to develop hit songs. The award-winning Berklee Songwriting Faculty have selected four comprehensive courses, each one devoted to a different song element, to help you get the most out of your musical ideas. Starting with the lyrics and music, you will learn how to generate thought-provoking ways to express the emotions you wish to portray. From there, you will develop your song into a balanced musical arrangement with complete accompaniment. The final project will take you through the process of producing your own demos using Ableton Live, one of the most exciting digital audio workstations (DAW) on the market today.

The online specialization named in this certificate may draw on material from courses taught on-campus, but the included courses are not equivalent to on-campus courses. Participation in this online specialization does not constitute enrollment at this university.
